

## UNIVERSITY OF CALIFORNIA

New Philological Association  
of the Pacific Coast.

## RARE HONOR BESTOWED ON PRESIDENT WHEELER

Hearst Hall to Be Opened January  
6th—Degrees That Have  
Been Conferred.

UNIVERSITY OF CALIFORNIA, BERKELEY, January 3.—Enrichment of Western scholarship undoubtedly will result from the organization of the new Philological Association of the Pacific Coast. Every university and college of importance in California and in Oregon and many schools and academies sent representatives to the convention which was held last Friday and Saturday in the Mark Hopkins Institute of Art at San Francisco, for the formation of the new society. The first annual address was delivered by President Ide Wheeler of the University of California. His address was "The Place of Philology." He said that the study of language and literature is man's completest self-expression, and that literary appreciation and historical research should be inseparably interwoven with the study of languages. He protected against barren formalism and pedantic absorption in technicalities.

"Chinese has many claims to be considered better adapted than any other tongue to become the universal language," said Dr. John Fryer, Agassiz Professor of Oriental Languages in the University of California, in his address to the philologists. Dr. Fryer declared Chinese the most comprehensive and the most expressive of languages. He said that it is a language without a grammar, without punctuation, without moods, tenses, cases, or persons, yet possessing immense flexibility of adaptation and wide scope for expansion.

Scholarly papers on the Greek, Latin, Semitic, German, French, and English literatures and languages were read by philologists from Leland Stanford Junior University of California, the University of Oregon, Whitman College, Wash., and by representatives of a number of other colleges and high schools. The association adjourned at the end of a two days' session, after electing permanent officers, arranging for regular meetings hereafter, and adopting a constitution similar to that of the American Philological Association. Life membership can be secured for a fee of \$50. The expenses of the active membership will be small. The publications of the society promises to be of importance. The organization will undoubtedly prove a powerful stimulus to original scholarship.

One of the greatest honors which can fall to the classical scholar has been bestowed upon President Benjamin Ide Wheeler of the University of California. Dr. Wheeler has been made a corresponding member of the Imperial Archaeological Institute of Germany, a learned society conducted under the auspices of the German Government, which supports schools of classical studies at Rome and at Athens, and conducts excavations and explorations in Greece, Italy, Asia Minor, and other parts of the ancient world. It is only with extreme rarity that the honor of membership is conferred upon foreign scholars.

The celebrated French symbolic poet, Henri de Regnier of Paris has completed arrangements with the University of California for a series of five lectures, to be delivered at 3 o'clock on the afternoons of April 17, 19, 21, 23, and 25, 1900, in Hearst Hall, Berkeley. M. de Regnier will speak in French. His subjects will be as follows: "Parnassians and Symbolists: Origins of Contemporary Poetry"; "The New Poetry School"; "The Poets of Today—Future of Poetry"; "Alfred de Vigny—A Precursor"; and "Joaquim de Heredia." The generosity of Prince Poniatowski has made it possible for these lectures to be free of charge for admission.

Mrs. Phoebe A. Hearst will, Saturday afternoon, January 6th, for the first time welcome the students of the University to Hearst Hall. Her hospitable doors will be thrown open for all the members of the University and for whosoever else desires to meet Mrs. Hearst. Mrs. William S. Ritter, the woman physician of the University, held a New Year "at home" last Monday for all the college girls who have spent the Christmas holidays in Berkeley.

President Benjamin Ide Wheeler and a number of members of the faculty have both attended the Southern California Teachers' Association convention at Los Angeles and the convention of the State Teachers' Association at Sacramento during the holidays, and have taken a prominent part in the deliberations of those bodies.

Work will begin at once upon the new extension to the University gymnasium which will enable the building to be used as an auditorium. The seating capacity will be 2,200. Only \$1500 was available for this purpose and for a needed extension to the Chemistry building, while \$19,554 was required. Mrs. Hearst presented to the University the needed balance. Bids for the work were opened at the last meeting of the Regents. At the same meeting Victor H. Henderson was appointed president's secretary,

and degrees were conferred as follows: Bachelor of law, Hastings College of the Law—Joseph O'Connor, San Francisco.

Doctor Dental Surgery, College of Dentistry—Paul Milton Burns, San Francisco.

Masters of Science, College of Social Sciences—Guinevere Motkiff, B. L. (Pomona College), Pomona.

Master of Science, College of Natural Sciences—Perley Gilman Nutting, A. B. (Leland Stanford Junior University).

Master of Science, College of Agriculture—Minnie Reed, B. S. and M. S. (Kansas College of Agriculture).

Bachelor of Arts, College of Letters—Lucia Hester Fish, Oakland; Helene Augusta Frost, San Diego, A. B. (Emory College); Alexander Maraden Kidd, San Francisco; Margaret Lillian Matthews, Berkeley; Nannie Fessenden Skimmings, Berkeley; Sarah Elizabeth Marquand Smoot, Berkeley; Katharine Stack, Berkeley; Almee Steinhart, San Francisco.

Bachelor of Letters, College of Social Sciences—Edith Sarah Brownell, Alameda; Julia C. Eppinger, San Francisco; George Hillary Harlan, Sausalito; Victor Hendricks Henderson, Los Angeles; Lena Florence McDonald, East Oakland; Florence McDuffe, Santa Barbara; Duncan Ernestine Mitchell, Alden; Nellie Vance, Stockton.

Bachelor of Philosophy, College of Social Sciences—Corrine Cartar, San Diego; Caroline Duval Ellsworth, Los Angeles; Charles Edmund Fryer, Oakland; Charlotte Mignon Hoffman, Oakland; Harry Arlyn Linscott, Santa Cruz; Isabella Mogeau, San Bernardino; Walter Newman, Santa Cruz.

Bachelor of Science, College of Natural Sciences—Earl Willis Garrison; Rodlands; Louise Hamlin Johnson, Berkeley; Adelaide Mary Hobe, San Francisco; Jennie Louise Powers, Kings River.

Bachelor of Science, College of Agriculture—Frank Freeman Ellis, Berkeley.

Bachelor of Science, College of Chemistry—William Thomson Skilling, Los Angeles.

Bachelor of Science, College of Mechanics—Allan Corey Burdick, Therman; Herbert William Crozier, San Francisco; Nelson Wamsley Thompson, San Francisco.

## What Is Shiloh?

A grand old remedy for Coughs, Colds and Consumption; used through the world for half a century, has cured innumerable cases of incipient consumption and relieved many in advanced stages. If you are not satisfied with the results we will refund your money. Price, 50c. and \$1. For sale by A. Goldner, the Druggist.

## Largest Plant in the World.

It is not the earth but the sea that has produced the largest plant in the world. That distinction is held by a gigantic seaweed, known as the nervocystis, which frequently grows to a height of more than 300 feet. The stem of the plant is as strong as an ordinary rope, and large quantities of it are dried and used as rope by the inhabitants of the South Sea Islands, where the curious vegetable ropes are found. This seaweed usually grows to a depth of from 200 to 300 feet. As soon as the plant takes root a spear-shaped balloon is formed, which grows with the stem toward the surface of the water. This balloon frequently has a diameter of six feet or more. It has, of course, an upward tendency, and therefore keeps the stem growing until it floats on the top of the water. This enormous weed grows in such quantities that large meadowlike islands are formed, which are often so big as to impede navigation. The ropes made from the stems of the plant are used for building purposes, and the balloons, when dried, make very serviceable vessels.

## Young Mothers.

Croup is the terror of thousands of young mothers, because its outbreak is so agonizing and frequently fatal. Shiloh's Cough and Consumption Cure acts like magic in cases of Croup. It has never been known to fail. The worst cases relieved immediately. Price, 50c. and \$1. For sale by A. Goldner, the Druggist.

## Not Exactly a Dead Town.

Life is not so very stagnant in North Carolina if we may judge from those items in a recent issue of a rural North Carolina paper: "Major Williams has had his leg cut off in a sawmill. Colonel Short happened to the accident of having his head blown off by a boiler explosion. Our new preacher had his house burned down recently. Five Mormon Elders were tarred and feathered yesterday. The new town hall was struck by lightning on Tuesday. A circus mule kicked one of our leading citizens on Saturday evening last. The new coroner was run over by a railroad train Wednesday. There is no news of importance in town."

L. T. Travis, agent Southern Railroad, Selma, Ga., writes: "I cannot say too much in praise of One Minute Cough Cure. In my case it worked like a charm. The only harmless remedy that gives immediate results. Cures coughs, colds, croup, bronchitis and all throat and lung troubles. City Pharmacy."

Troublesome, but She Was Accommodating. "What does this mean?" Bridget, exclaimed the lady of the house, returning from shopping; "the telephone's been taken out!"

"Sure, ma'am, the girl over the way came over and said her missus would like to use it for a while, and I sent it over to her; but I had a terrible job getting it unscrewed from the wall, ma'am."

F. B. Thirkfield, Health Inspector of Chicago, says: "Kodol Dyspepsia Cure cannot be recommended too highly. It cured me of severe dyspepsia." It cured me of severe dyspepsia. It digests what you eat and cure indigestion, heartburn and all forms of dyspepsia. City Pharmacy.

## WOOD AGAIN SUES FOR LIBEL

## HOBOTHOUGHT SONORA AN EARTHLY PARADISE

Death of a Victim of the Gwin Mine  
Accident—Some Shooting at Old  
Sonora Town.

## EL DORADO COUNTY.

Nugget, Placerville, December 30th.

"Happy Tom" Burrell was arrested yesterday for assault, on a warrant sworn out by Tom Irvine. His case came up in Justice Carpenter's court this morning, and in half an hour Burrell was acquitted.

A day or two ago Burrell went to Sacramento, leaving the bar of the hotel in charge of Irvine, who, as soon as he was left alone, commenced to fill up on all the good things which "Happy Tom's" place afforded, until he was "unfit for publication." In response to a telephone message, telling of the state of affairs, Burrell hurried home, and the first thing he did upon entering the hotel was to order Irvine out. Irvine persisted in hanging around the hotel and "Happy Tom," employing his usual method of ridding himself of obnoxious persons, turned a soda siphon on Irvine. He "got" immediately proceeded to get revenge, with the above result.

Democrat, Placerville, December 30th.

George A. Richardson, who was called to Auburn about ten days ago by the serious illness of his mother, returned to Placerville Saturday, leaving her at ease and slightly improved, although at her advanced age a stroke of paralysis was a severe shock to rally from. Charles Richardson, formerly of Placerville, now located at Stockton, was also in attendance, with other relatives, at his mother's bedside.

## CALAVERAS COUNTY.

Chronicle, Mokelumne Hill, December 30th.

J. Giudigli, the man who was injured at the Gwin mine, an account of which was given in our last issue, died from the effects of his injuries and was buried here Sunday last under the auspices of the Odd Fellows.

Prospect, San Andreas, December 30th.

Another accident happened in the Lightner mine last Wednesday forenoon. An Austrian named John Kostovich attempted to step off the skip while it was in motion, with the result that the bonnet of the skip struck him. He was badly cut on the head, side of neck and breast. It is said that it is impossible for him to recover.

Of course nobody could be blamed but the unfortunate man himself, as it was undoubtedly a piece of gross carelessness on his part, unless he was obliged to do so in order to save himself from going into the dump, or to avert some other fatal accident.

E. E. Wood, the Angels attorney, filed another action in the Superior Court last Wednesday against C. R. Beale of San Francisco, proprietor of the Calaveras Citizen, and C. O. Ziegler, the editor and publisher of the paper, to recover \$5000 damages claimed to have been sustained by him by reason of certain alleged libelous articles which appeared in the issues of the paper between the 11th of November and the 23d of December of the present year. As will be remembered, Wood commenced suit against that paper shortly after the publication of November 11th, asking \$2000 damages, and also instituting proceedings under the Morehouse signature law, which imposes a fine of \$1000 for a violation of its provisions. The case finally came up for hearing and was dismissed on demurrer. In the meantime and between the dates above named that paper retorted in rather caustic criticisms of the plaintiff, so the latter filed a new complaint on the first charge, also bringing in the matter contained in the later publications as additional counts to his complaint, and asking the Court to award him damages in the sum of \$5000, costs of suit and such further relief as the Court may deem agreeable to equity. In this complaint no action is taken under the Morehouse law.

Citizen, San Andreas, December 30th.

The family of Hon. F. J. Solinsky will leave for their new temporary home at Berkeley on January 4th. The new cottage at Berkeley is all ready for occupancy, having been completely furnished. Mr. Solinsky will accompany the family to Berkeley and install them in their new home. The affections of the community will follow Mrs. Solinsky to the bay.

One of the oldest pioneers of Calaveras county and of California passed away when Edward Stickles, of the widely known firm of E. & G. Stickles of Angels Camp, died on the day before Christmas. His memory will be long cherished, as was shown by the immense attendance at his funeral, which occurred Tuesday.

## TUOLUMNE COUNTY.

Union Democrat, Sonora, December 30th.

The butchers of Big Oak Flat are forced, on account of an extensive trade, to import cattle from the southern part of the State.

New Era, Carters, December 30th.

It has been the custom from time immemorial for travelers en route on rail-

roads to carry, in flasks and bottles, samples of the jim-jam producing fluids, and it was owing to this that a representative of the New Era was a witness to a very funny transaction one day during the early part of the week, while at the depot in Sonora. As the evening train pulled in at the station from Jamestown, one of two gentlemen seated in the smoker produced a flask of the article, and, pouring out a generous drink, handed it to his companion, who, probably remembering a promise he had made his best girl before leaving home, not to drink while on the journey, held it in his hands a few moments, then threw the contents of the glass out of the window, and full into the face of one of the genus hobo fraternity, who was standing on the platform, conversing with a friend.

"Gee whiz," but that was fine, "and it came like a remittance from home," he said, "and I intend to remain in Sonora and take in every train that pulls in at the depot."

Mother Lode, Sonora, December 30th.

Quite a lively little shooting affair took place last Saturday evening in Phillips' saloon in Washington street, the trouble arising from a discussion of the Boer-British war. The champion of the farmers, Matt Thorne, was getting the worst of it, when he unlimbered his artillery. He proved a poor marksman, but one bullet out of five reaching the mark, that one passing through the fleshy part of the Briton's—Thomas Jenkin's—leg.

Dr. C. Condon of Jamestown, who was hurt in a runaway last summer, has returned from San Francisco, where his shoulder was successfully operated upon, giving him full use of his arm. His recovery is now complete.

Independent, Sonora, December 30th.

William Henry Rablen and wife are in San Francisco on account of the illness of Mrs. Rablen's brother, Vivian Cowan.

## Many a Lover

Has turned with disgust from an otherwise lovable girl with an offensive breath. Karl's Clover Root Tea purifies the breath by its action on the bowels, etc., as nothing else will. Sold for years on absolute guarantee. Price 25c and 50c. For sale by A. Goldner, the Druggist.

## Old, but Good.

A new advertising scheme was recently employed by a firm in a Southern city. The junior partner of the firm swore out a warrant for the arrest of the senior partner on the ground that he was selling goods below cost, and that the firm was constantly losing money thereby.

The case came up in court, and the counsel for the senior partner asked for a postponement in order to have more time to prepare his case. The judge granted the request, bail was fixed, and the senior member released. As he left the courtroom the junior partner arose and exclaimed, "If he is released the sacrifice will go on!"

The news soon spread and the firm did a better business. When the case was again called no plaintiff appeared and the charge was dismissed. The firm had succeeded in their object—advertisement.

## You Try It.

If Shiloh's Cough and Consumption Cure, which is sold for the small price of 25c, 50c and \$1, does not cure, take the bottle back and we will refund your money. Sold for over fifty years on this guarantee. Price, 25c and 50c. For sale by A. Goldner, the Druggist.

## Found a Petrified Canoe.

While hunting a short time ago, John Barrett and Frank Brockless found a petrified canoe about one-third of the way up to Job's Peak. It is about sixteen feet long and four feet wide. A petrified ar lie across the top of the craft. About 100 feet higher and directly back of the canoe is a cave which extends into the side of the mountain about 100 feet. The average width of the cave is about twenty-five feet and it is about fifteen feet to the ceiling. The place shows many signs of having inhabited. The boys will explore further as soon as the snow will permit and bring the canoe out intact if possible.—Gardenville Courier.

"I am indebted to One Minute Cough Cure for my health and life. I cured me of lung trouble following grip." Thousands owe their lives to the prompt action of this never failing remedy. It cures coughs, colds, croup, bronchitis, pneumonia, grip and throat and lung troubles. Its early use prevents consumption. It is the only harmless remedy that gives immediate results. City Pharmacy.

## A Ready Reckoner.

"My friend," said the traveler to the provincial, "do you know this country well?"

"I reckon so."

"Is it far to the next town?"

"Reckon it is."

"About three miles?"

"Reckon so."

"Well, am I in the right road?"

"Reckon you air."

"Tell me," said the traveler, "have you any other business besides 'reckoning'?"

"I reckon I has!" was the final reply.—Atlanta Constitution.

J. I. Berry, Logansport, Pa., writes, "I am willing to take my oath that I was cured of pneumonia entirely by the use of One Minute Cough Cure after doctors failed. It also cured my children of whooping cough." Quickly relieves and cures coughs, colds, croup, grip and throat and lung troubles. Children all like it. Mothers endorse it. City Pharmacy.

## Use for Both.

Stubb—Which do you think is of the most importance—brain or bone and sinew?

Penn—Well, it depends on who you are. If you are an inventor, brain. If you are a butcher, bone and sinew.

## That Is the One.

There are many Joneses in this world, but perhaps not quite so many as people think. Not long ago two friends met who had not seen each other for ten years, since their school days.

"Whom did you marry, Billy?" asked one.

"A Miss Jones of Philadelphia," replied Billy, who was a trifle sensitive. "You always did take to the name of 'Jones.' I can remember when we went to school together you used to tag around after a little snubbed Jones girl."

"I remember it, too," said Billy.

"She's the girl I married."

Q. H. Appleton, Justice of the Peace, Clarksville, N. J., says: "De Witt's Little Early Risers are the best pills made for constipation. We use no others." Quickly cure all liver and bowel troubles. City Pharmacy.

## A Type of Silarian.

In one of the public meetings in San Francisco discussing bond matters Col. M. H. Hecht said of a prominent opponent of the park improvements: "I have known him for thirty years. He is a multi-millionaire. The only time I ever saw his signature was on a receipt for money or on a protest against public improvements."

Men of his class if not of his fortune are to be found in every community.

## MISCELLANEOUS.

## CURIOUS CUCKOOS.

The cuckoo is generally known only as a letter with a very monotonous note: a continuous cry of "cuckoo, cuckoo" over and over again. Among naturalists, however, the cuckoo is known as a bird that never builds a nest for itself, but takes advantage of one already built by some more industrious bird.

There is a good deal of the cuckoo about these advertisers who, instead of making a success of their own, seek to profit by the success which some one else has made with much effort and labor. It is so with those imitations of Dr. Pierce's methods, by which free medical advice is offered, although those who make the offer are without qualified medical ability or experience. And the cry raised in some cases of "woman, woman, woman write to woman" makes the resemblance to the cuckoo even stronger.

There is as far as known no qualified woman physician connected with any proprietary medicine establishment, and none therefore competent to give medical advice. It is certain that there is no one, man or woman, who can offer free medical advice backed by such knowledge and experience as is possessed by Dr. R. V. Pierce, chief consulting physician to the World's Dispensary, Buffalo, N. Y. For over thirty years Dr. Pierce has made a specialty of the treatment of diseases peculiar to women. In that time he has treated over half-a-million women, ninety-eight per cent. of whom have been perfectly cured. Every sick woman is invited to consult Dr. Pierce by letter absolutely without charge or cost. Every letter is held as strictly private and sacredly confidential, and all answers are mailed securely sealed in perfectly plain envelopes bearing no printing whatever upon them.

FRIDAY, JANUARY 5, 1900

## CHANGE OF OWNERSHIP.

The Amador County Publishing Company has bought the AMADOR LEDGER, and will edit and publish this paper, discontinuing the publication of the Amador Republican, which it has owned and published for some years.

That the publication of two Republican papers in Jackson has been unwise from a business standpoint, always has been realized by every one in the community, except R. Webb, who was instrumental in establishing the Republican. No one has realized this more vividly than the editors of the two papers. For two years past matters pertaining to a consolidation of the LEDGER and the Republican or a purchase of one by the owner of the other has been discussed and considered, while the advisability of such a course has received the attention of many of the leaders in business and in politics throughout the county. On January 2, 1900, the matter was settled to the satisfaction of all parties concerned by the consummation of the sale of the LEDGER to the Amador County Publishing Company, which company has decided to discontinue the publication of the Republican and devote its energies to increasing the growing influence of the LEDGER for the betterment of Amador county.

With this change in ownership comes my retirement from the newspaper business in Amador county after seven years as editor and proprietor of the AMADOR LEDGER.

The ups and downs of a newspaper man's experience were never better illustrated than by the experience of the LEDGER during the last seven years. During it all the LEDGER and its proprietor have come up smiling after every knock down, and he, by the exercise of a little pluck and energy, has managed to keep the paper in the front rank of journalism along the Mother Lode. During the seven years it has set the journalistic pace for the county, and its owner and editor has a right to feel proud, and does feel proud of its achievements.

The LEDGER has made many friends by its upright and honorable course in its dealings with all men and measures, and is proud of them. At the same time it has incurred the ill will and enmity of some people from whom it has pulled the mask, exposing them to the broad light of day through its columns. Some of these, aye, many of them, have taken the course of the LEDGER as a personal matter, but, as all honorable and respectable papers and their editors are proud of their enemies, the LEDGER is doubly proud of those it has made.

The writer hereof could fill a book with his experiences as a journalist in Amador county, but as all of the contemptible, connubiating and infamous intrigues directed against him have been exposed by this paper and thoroughly understood by its readers and friends, they have signally failed of their intention and thus have come to naught, and on this occasion further reference thereto is unnecessary.

The course of the LEDGER in the future will doubtless be upward and onward. The conditions are ripe in this community for a powerful Republican newspaper, which it is the intention of the present owners to make it, as well as to keep it the leading newspaper and the leading advocate of all of the material interests of Jackson and of Amador county. That they will receive the hearty assistance of the people in the matter of subscriptions and advertising, which are so necessary to make a successful newspaper, there can be no doubt, and with these the future success of the LEDGER is assured.

And, now, knowing that my newspaper experience in Amador county has closed; believing that with its close I will leave a congenial association with the other newspaper men in the county; fearing that with its close will come changing scenes and other climes; and forever mindful of the many favors for which I am under the greatest obligations to advertisers, subscribers and other patrons and friends, I bid the newspaper world of Amador county farewell.

WILL. A. NEWCOM.

Jackson, January 5, 1900.

## DESERTING THE SINKING SHIP.

The popgun organs of the Democracy are still telling the people that Bryan and sixteen to one is the proper slogan for the party in 1900. They are, on the average, using syndicate editorials issued by the Bryan information bureau and sent broadcast throughout the land in the hope that the lazy or tired Democratic editor will incorporate them in the editorial columns of his paper to save labor, and thus become responsible for their publication. Almost daily some paper comes to this office whose editorials wear the earmarks of the syndicate. In the light of the fact that the leading men of the Democratic party throughout the United States are falling away from Bryan and his cause these syndicate editorials are, to the minds of thinking men, the veriest rot. That they are leaving him and his cause like rats leave a sinking ship there is no doubt. The latest Bryanite to catch the infection is W. S. McComas, editor of the Democratic Magazine, published at Chicago, who concludes an article entitled, "Breakers Ahead" in the current number of that magazine with the statement that the nomination of Bryan against McKinley in 1900 "means foregone disaster to his party." Mr. McComas has been, up to this time, an advocate through good and evil report of the Chicago platform, silver, and Bryan—always Bryan.

He says also that he, in common with others, has been deterred by a feeling of delicacy and by a desire to avoid giving offense from speaking the plain truth. Then he sets forth that the belief has grown up throughout the land that Bryan cannot lead to victory this year; that the party must remain divided while he is the leader. The philosophy of that belief is dismissed with the reflection, illustrated by the citation of Henry Clay and James G. Blaine, that popular idols are not often elected President. The leaders of the party, it is explained, "realize this, but seem to choose defeat rather than encounter hostility that is as unreasoning as it is pitiless. Mr. Bryan is asked to sacrifice himself this time with the certainty of nomination and election four years hence.

The article concludes: "The discussion of the question of Mr. Bryan's successor would be premature. Though many names are being mentioned, privately, it is certain that their eligibility should not be canvassed until the general question of leadership has first been settled. They are agreed that Mr. Bryan's renomination would mean a repetition of the disaster of 1896 and in a worse form. It is for the party to choose between certain defeat and possible victory."

## WRECKED THE OFFICE.

An attorney, E. E. Wood of Angels Camp, who had a grievance against the Calaveras Citizen of San Andreas, entered the office of that paper and wrecked the forms which were almost ready to be put to press for the last current issue of the paper. The act was committed by Wood while enraged over a number of articles reflecting upon him as an attorney and citizen, which appeared in different issues of the Citizen, and because of which he had brought suit against the management of that paper for damages. Just prior to the act Wood met C. O. Ziegenfuss, the editor, on the street and demanded to see what was in the paper about him that week. Ziegenfuss calmly denied the request and slowly walked away. Wood went directly to the office, and, finding the door locked, forced it open and did the job. As he was leaving the place, he remarked to a bystander that he guessed nothing would be in the paper about him that week, or words to that effect. The only legal steps possible, under the circumstances for Ziegenfuss, in the matter, is to prosecute Wood for malicious mischief and a civil suit for damages. The latter, however, is hardly feasible, as Wood is said to be judgment proof. Everything considered, Mr. Wood is extremely fortunate even though he receive the full penalty of the law for his crime, as there are but few newspaper people in the country who would not go "gunning" for him under the circumstances.

VARIOUS amendments and changes have been made in the county ordinances since they were published a few months ago. It would be well at this time for the District Attorney to have the license ordinance, No. 91, so amended that it will be clear to all, whether saloon men who were in business when the ordinance was passed have to secure a license by the prescribed course this year or not. The ordinance reads so it is subject to either interpretation, and it should be made clear enough to be understood by all who read. License Collector Gregory says it is necessary to get a new license, while the District Attorney says it is not.

BY NOTING the proceedings of the Board of Supervisors it will be observed that the contract to make maps was awarded to John Brown, the supervision thereof being made the duty of the County Surveyor. This should cause no delay in the prosecution of the suit to recover on the bond of the ex-Assessor.

IN THE news columns of the LEDGER this week will be found an editorial from the San Francisco Post, the title of which is "The Love of Dirt." Attention of the citizens of Jackson is called thereto. Comparisons are "odorous," and at the same time unnecessary.

THE way people are asking for saloon licenses it would seem that there is a growing belief that there are not enough saloons in Jackson.

## THE LOVE OF DIRT.

Indisposition of Mankind Generally to Submit to Sanitation.

An Eastern newspaper, commenting upon the indisposition of mankind generally to submit to sanitary innovation, refers to the population of Havana, Cuba, as the most incorrigible on earth. The American military authorities who have been running that city for some time have insisted upon sewerage, scrubbing, deodorizing and sterilizing the town, and on all sides the people are objecting to the process and making invidious comparisons between the methods of the American health officers and the tyranny of the Spanish tax-gatherers. Evidently they think it was easier to get along with the Spaniards than it is now with the Americans, since they are being made the victims of cleaning-up processes, which they regard with holy horror. Indeed, one newspaper openly declares that they prefer to be left undisturbed with their filth and death rate.

But this attempt to force cleanliness upon the people of Havana is not being met with any less hilarity than the American civilizing methods are being received in the Philippines. A Manila correspondent for an Eastern newspaper wrote the other day that General Otis had made the people of Manila a great deal cleaner than they cared to be made, and he predicts that if the American General persists in his sanitary plans, he will soon have the native population in rebellion.

These things sound exceedingly funny, but it will be remembered that the population of Bombay a few years ago persisted in dying of the plague rather than submit to sanitation. But are the barbarian tribes of tropical countries the only people who resist cleanliness? We remember that when Colonel Waring took charge of the New York Street Cleaning Department his sanitary schemes were resisted with great strength by Tammany Hall, and when he was finally turned out of office by Boss Croker, the people rejoiced that they could freely return to their muddy streets and foul-smelling sewers. This sounds funnier still.

The antipathy which most people have to cleanliness is one of the marvels of history. It can be explained on no theory except that it is natural for all animals to be dirty.—San Francisco Post.

## Why Suffer

With toothache when you can have them filled by electricity without one pang of pain at Dr. W. F. Green's, Webb building.

A Native of Jackson Passes Away. Albert N. Bruml died at Stockton December 27, 1899. The deceased was the son of M. Bruml, a pioneer of Amador county, and was aged forty years, ten months and eleven days. He was a native of Jackson. [Amador papers please copy.]

## THE MINES FOR ONE WEEK

## The Good Hope Mine Wasn't Jumped.

## SOME RICH ORE STRUCK IN THE COMMODORE

## Strike Made at the Schneider Mine in El Dorado County—Activity in Tuolumne.

## AMADOR COUNTY.

## Good Hope—Jackson.

Last Sunday, just after midnight, an attempt was to have been made to jump the Good Hope mine. It had been supposed that the assessment work for 1899 had been performed, when Judge Davis, who has lately become interested in the mine, returned from San Francisco Saturday night he gave orders that the company resume work upon the mine beginning at 6:30 p. m., Sunday, and continue assessment work until a full \$100 worth of work should have been completed in 1900. This was done as a matter of precaution. Just before the shift began work it developed that parties who had gained considerable notoriety in this community, by certain kinds of mining operations had made elaborate plans to jump the mine just after midnight. Their "gun fighter" had been picked out but was of the class of men who "talk too much" so the plan miscarried.

Judge Davis is entitled to the thanks of the mining community for defeating the scheme of the would-be jumpers.

## EL DORADO COUNTY.

Placerville Nugget: A strike has been made at the Schneider mine near El Dorado. This mine is bonded by Seymour Hill and C. F. Bryant. Last summer a tunnel was run 750 feet and it was crosscut to the east. Yesterday a cut was made forty feet into the vein, showing plenty of free gold, the vein being three feet in width. This mine adjoins the Griffith and Coleman.

Placerville Democrat: Superintendent Edward Bird of the Blue Gouge mine, returned from a business trip to San Francisco, Wednesday. He reports improvements at the mine as progressing very satisfactorily. The frame work of the mill proper is up and enclosed, and, with the machinery all on the ground, Mr. Bird hopes to have the mill running within two months.

## CALAVERAS COUNTY.

Eighty stamps are dropping at the Gwin mine. There are about 170 men on the payroll.

The work of sinking at the Vorlander has been stopped, and preparations are now being made to crosscut the lead.

San Andreas Prospect: Some very rich rock was struck last week in drifting north on the 300-foot level of the Commodore mine, which is situated about one mile west of San Andreas. The rock is of an excellent character and will go between \$5 and \$6 to the ton. Mr. Clary, the superintendent, informs us that he has already twelve feet of this rock, but the full width of the vein has not yet been determined. Twelve men are employed at the mine, work is going ahead in an active and systematic manner; the present outlook for this property is very good.

San Andreas Prospect: The Golden Eagle mine, situated near Lloyd's ranch, is thought by many who are familiar with its history to be one of the best outside mines in the Sheep Ranch section. Years ago the rock was worked from it and was rich enough to pay all expense of sinking. The ground was somewhat of a loose nature, requiring much timbering and extra expense when considerable depth was made. Lack of capital on the part of the owners was the only reason that caused suspension. It is hoped that this property will be reopened in the near future.

## TUOLUMNE COUNTY.

The mill on the Arbon started up again on the 1st. The force in the mine will be increased.

Work on the north extension of the Mt. Jefferson has commenced. A shaft will be sunk 500 feet, more or less, until striking the vein.

The forty stamps at the Rawhide mine are dropping regularly. The work of sinking the shaft was discontinued upon reaching the 1700-foot level. Sixty-five employees constitute the present working force.

Carters New Era: The Progressive Development Company, incorporated last week with a capital stock of \$100,000, divided into 200,000 shares at 50 cents per share. At present the company is directing all attention to the Ida Dell mine, situated between Carters and Confidence, and the prospects are encouraging in the extreme. We understand that the stock is not on the market.

Sonora Union Democrat: Crosscutting to the hanging-wall, drifting to the west and sinking the shaft are the present points of operation in the Little Wonder at Big Oak Flat. The main shaft has reached a depth of 150 feet, the vein averaging four feet in width and the milling ore gives a return of \$8 to the ton. In one of the crosscuts to the hanging-wall a rich shoot of high-grade ore was struck. About 100 feet east of this crosscut the same shoot was cut and another crosscut is being run seventy-five feet lower down, with the object of tapping the same ore body. Preparations are under way for the erection of a ten-stamp mill.

## Machinery for Union Copper Mine.

Stockton Mail: The Globe Iron Works this morning received on the steamer T. C. Walker a sixty-two inch combination radial drill of the latest

improved pattern which was purchased in Cincinnati by E. F. Cadde on his recent trip to the East. The drill is a fine piece of workmanship and contains several improvements that will enable it to do faster and better work than drills of the old pattern can do.

Last Saturday the same firm sent two seven-foot V gears and pinions to the Union copper mine at Copperopolis. This is the mine which is being pumped out in order to get the shafts clear for working. In hoisting water some of the machinery was cracked and the gears and pinions sent from here were intended to replace defective pieces.

## Notice.

JACKSON, January 2.—I intend to leave for Alaska early in the season. All persons indebted to me are requested to settle before February 1st, as my unsettled accounts will then be placed in the hands of the collector.

## For Sale.

One Piano as good as new.  
One 4-Horse Power Engine with a 7-horse power boiler.  
One Clay and Gravel Worker, 1-horse power.  
One Derrick and hoisting outfit.

## Dr. C. H. Gibbons.

## Grand Jurors Listed.

The following Grand Jurors were listed in the Superior Court to act during the year 1900:

Henry Kueley	B. F. Taylor
Charles E. Harmon	W. B. Kent
William M. Perry	A. Chittenden
J. A. Butterfield	E. H. Harrington
J. W. Surfact	Henry N. Northrup
Richard B. Barker	W. A. Bennett
D. McCall	J. H. Hoffman
George Woolsey	Albert Uhlinger
W. H. Zumalt	P. I. Jonas
W. O. Green	P. A. Clute
Joseph Pighon	John Lithgow
E. B. Moore	V. J. Chichicola
C. O. Mitchell	Andrew Noce
A. L. Garbarini	E. C. Voorheis
Robert Curran	John Dennis
E. S. Barney	Allen McWayne
Lawrence Burke	John E. Brown
George Easton	Oliver Ball

## Trial Jurors Listed.

The Board of Supervisors listed the following two hundred persons as trial jurors during the year 1900:

TOWNSHIP ONE.	
John Quirelo	A. Perovich
E. W. Kelley	W. A. Courtwright
E. M. Hearst	T. K. Kerr
F. Mayer	R. L. Kerr
C. Marcia	John Goling
E. Fink	L. N. Keagle
David Mattley	C. M. Kelley
N. Radovich	D. L. Mason
M. J. Plasse	J. Huberty
J. Strohm	E. G. Turner
J. H. Langhorst	J. Holtz
S. Williams	L. Martell
H. S. Tallon	G. L. Thomas
T. K. Norman	A. C. Voorheis
T. D. Madden	S. Angove
D. Brown	D. Brown
Thomas B. Greenhalgh	Oscar Myers
C. M. Meek	C. W. Hamrick
L. Parker	R. Rugue
J. R. Dick	M. Newman

TOWNSHIP TWO.	
Harry Burris	John Muldoon
J. C. Jones	M. Isaacs
John Gregory	John Noyes
Dan Fitzsimmons	I. N. Chitwood
Joseph Miller	Robert Lucas
A. A. Diebold	C. Child
L. A. Eaton	G. E. Waddell
P. J. Koch	H. G. Kientz
R. L. Pardee	M. Carbine
P. Sherman	D. C. Churchman
G. Graupner	C. Campbell
Edward Gartin	F. Merrill
J. Ringer	E. Frederick
E. Merkel	A. Brady
A. Brady	K. Bonham
Charles Henderson	A. Mayhew
W. Prouty	F. Lambing
E. Robinson	J. W. Jones
G. Yager	A. Cottell
William Nichols	J. G. Petty

TOWNSHIP THREE.	
Alexander Adams	C. Bradshaw
E. C. Barnes	T. Batchelder
B. C. Calvin	E. W. Emble
H. Griffin	L. R. Jewell
A. Ladetukis	W. H. Ryan
H. C. Toop	J. H. Thrasher
J. B. Cassinelli	N. E. Denend
R. B. Evans	W. H. Glenn
J. B. Grillo	E. E. Jones
A. W. Kimball	G. Kaffer
H. L. Loree	J. W. Lucot
S. Bloom	G. H. Carter
L. H. Jordan	W. A. Marshall
I. Mills	I. P. Ostrom
J. Schilling	W. H. Sharp
J. A. Votaw	W. F. Woolfok
C. Wilson	R. B. Maxwell
George Miller	M. Robinson
J. Barton	J. F. Goodman
W. H. Lesley	

TOWNSHIP FOUR.	
D. Colwell	Thomas Frakes
E. C. Fournier	Herman Herdick
C. E. Jones	L. Katz
Thomas Lehman	Theodore Lithgow
L. Marre	W. Norton
J. M. Post	John Rick
A. J. Sheolar	H. Sherwood
S. J. Shaw	William M. Tucker
John Adamant	R. M. Brown Jr.
W. S. Cooper	John Connors
D. A. Cooper	H. J. Deacon
Joe Dower Sr.	J. W. Gotthe
T. J. Mahoney	L. M. Radtatz
A. Seabrook	James Bennetts
F. M. Money	F. J. Ford
J. Phillips	N. Raphael
John Venning	George Wrigglesworth
J. W. Waters	N. Hornberger
Isaac Lesley	Frederick Setzer
M. S. Nixon	

TOWNSHIP FIVE.	
Henry Woolford	W. S. Weston
Frank Tromp	A. Grainger
Peter Lawson	Silas Grainger
William Felker	Benjamin Fisher
W. H. Brown	W. H. Brown
N. E. Wheeler	Michael Butler
George A. Upton	Ezra Taylor
J. F. Prethorpe	J. B. Nimis
J. G. Nute	S. K. Davis
John Allison	F. B. Antmire
R. M. Brown Jr.	R. M. Brown Jr.
John Coulton	John McCulloch
E. S. Taylor	J. D. McFarlane
Charles Cramer	E. N. Eick
James R. R. R.	Edward Anderson
William Phunglett Sr.	W. H. Dickerman
H. N. Dickerman	W. C. Littlefield
W. C. Littlefield	A. M. Dinebar
James Hardenberg	Samuel Rodgers

## Notice to the Public.

JACKSON, December 26.—Having acquired all the right title and interest of James R. Dunlap in and to the City Pharmacy of Jackson, Cal., I hereby announce that I will assume all liabilities of the firm and will collect and receipt for all bills due the firm.

To many patrons and to the people of Jackson generally, I take pleasure in announcing that the business there will be conducted in the future in the same careful, conscientious and painstaking manner it has been in the past.

A competent graduate in pharmacy will be in attendance at all times, special care being given to the compounding of prescriptions.

Thanking the people of Jackson for their good will, and especially thanking the patrons of the City Pharmacy for their trade in the past, and hoping to merit its continuance in the future, I extend to all the compliments of this joyful season, a fervent hope for a bright, happy and a prosperous New Year. Sincerely,  
ROBT. L. KENN.

## Freeman's Drawing.

Ticket No. 138, held by Mrs. Samuel Harris, won the gold, and ticket No. 74, held by Mamie Tam, won the toilet set.

"Sorosis," the new show for women, at Show's Cash Store, Sutter Creek.

## THE NEW-YEAR MASK BALL

## Large Number of Maskers in Attendance.

## LIST OF PRIZES AWARDED VARIOUS MASKERS

## Those Who Were Present on Masque and the Costumes They Wore—A Gay Time.

The Native Daughters grand masquerade ball on New Year night was the grand success the committee in charge designed it to be. The entire evening was enjoyed by a large number of maskers and by many spectators. The dancing continued until a very late hour in the morning and every one went home well pleased with the occasion.

Quite a number of people were in attendance from adjoining towns and added their share to the evening's enjoyment.

## Following is the list of maskers:

LADIES.	
Ida Burbank, Night.	
Bob Sisters, Dominoes.	
Mrs. Fannie Bonney, Laces.	
Jessie Hicks, Tissue Paper.	
Maud Kerr, California and Nevada.	
Pauline Drouel, N. use.	
Myrtle Clark, Flowers.	
Bena Conant, Dancing Girl.	
Rose Angove, The Duchess.	
Mrs. Annie Weller, Aurora.	
Miss Edith Jones, Night.	
Lillie Linn, Cupid.	
Anna Mayford, Queen of Ferns.	
Mrs. Danielson, Domino.	
Miss Jackson, Popcorn.	
Mrs. H. Gish, Fancy Dress.	
Mrs. Martin Prazier, Holly Berries.	
Mrs. Lewis Jones, California.	
Mrs. Wianie Love, Summer.	
Johanna Goring, Winter.	
Gurli Baron, Ferret.	
Miss P. Martell, Poor Girl From Italy.	
Louisa Brindardell, Roped in.	
Nellie Dickerman, Red, White and Blue.	
Annie Ford, Zepher.	
Mrs. J. A. Wilson, Fancy Dress.	
Mrs. S. Angove, Old Woman Who Lived in a Shoe.

Harvey Pense, Chinaman.	
Giacca Guerra, Apache Indian Squaw.	
Willie Schroder, Apache Indian.	
Tom Camphell, Chinaman.	
A. W. Porter, Soldier.	
W. H. Johnson, Sailor.	

## ONE-JACKSON RAILROAD.

Articles of Incorporation Filed at San Francisco—Work to Begin Soon.

The mining towns of the Mother Lode in Amador county are to have direct railroad communication with San Francisco. A railroad is to be built from Ione on the line of the Southern Pacific to Martell's Station, a distance of thirteen miles, from which branches will be run to Jackson and a point near Middle Bar, and to Plymouth via Sutter Creek, Amador City and Drytown, in all a distance of thirty-five miles. The road is to be of standard gauge, sixty-pound rails being used, and will be constructed by a company specially formed in New York for that purpose. David Gutmann, the mining man of this city and Amador county, is the moving spirit in the affair, but associated with him are E. Van Etten, general superintendent of the New York Central, who will be president of the Jackson, Sutter Creek and Amador Railway Company, and W. R. Woodward, vice-president and general manager of the Randsburg Railroad, who will fill the position of vice-president and manager of the new company. Clarence L. Feusler will be the secretary and treasurer, and construction will be commenced as soon as the corps of engineers has been completed. The road is expected to do a large business in the way of transporting supplies and machinery to Amador county and our bullion and other products to San Francisco.

The articles of incorporation of the Jackson, Sutter and Amador Railway Company were filed at the City Hall yesterday. The capital stock is \$2,100,000, divided into 21,000 shares of the par value of \$100 each. E. Van Etten, Gustave L. Jaeger, Clarence L. Feusler, W. R. Woodward, Carl L. Jaeger, P. A. Buell and R. Schumacher are the incorporators. The office of the company is at 320 Sansome street, this city. —San Francisco Chronicle.

Work will be commenced as soon as the final survey, which is now under way, is completed. Mr. Woodward will be in Jackson with Mr. Gutmann during the coming week.

## Two Deaths.

Domenico Poesia died last Thursday. He was taken sick Sunday before and rapidly succumbed to pneumonia.

Andrew Pendo died at R. Rugue's restaurant in Jackson, Tuesday night, from the effects of pneumonia. His remains were buried at Jackson today, under the auspices of the Austrian Society, of which he was a member.

## Leg Broken at the Gwin.

A miner named Rabbotto had his leg broken at the Gwin mine yesterday. He was a carman on top, but whether his injury was caused while pursuing his duties the LEDGER did not hear.

## CULLINGS FROM PINE GROVE

PINE GROVE, January 2.—The weather in this section has been great for ducks and gravel mines.

The roads here are in a deplorable condition, but, owing to the frequent rains, it would be a waste of money to attempt to repair them.

Merchants of Volcano are paying freighters 1 cent a pound for hauling goods from Ione, and very few of the teamsters are willing to haul, even at such figures.

Manuel Santifero, while at work in a gravel claim at the head of Santa Clara gulch, met with a very painful accident Monday. While other employees of the claim were pitching wood over an embankment, one of the pieces struck him on the leg, inflicting a very painful wound. It will be a number of days before Mr. Santifero will be able to resume work.

C. B. Calvin, William Southard and Captain J. Miller are gulch mining in Calaveras county, near Railroad Flat. Clarence Bradshaw, the genial superintendent of the McLaughlin ditch, is kept busy these days catering to the wants of the many patrons of the ditch company.

C. C. Luttrell, an amiable merchant, made a flying trip to the valley last week, returning Sunday.

From parties just returned from the Bear river camp of the Standard Electric Company, I am informed that there is at present about eighteen inches of snow, and that there is no snow below Ham's station. At one time this winter there was about five feet of snow at the camp and it took fifty men about five days to clean eight miles of road, to enable the taking in of supplies. It is said the animals in there were four days without hay. There are at present about sixty men employed at the camp and all seem to be getting in almost full time. It is stated by well-informed people that the work on this dam is equal, if not superior, to anything in the State.

Work on the Manuel Santifero claim is progressing, and such praise is due to the Messrs. Watkins for the way they are operating this mine. What we want in this section is a few more men like the operators of this property.

The Pine Grove Hotel is once more open for business. This time it is under the management of Otis Welton and his estimable wife. The entire building has been cleaned and renovated and new furniture supplied throughout. I predict for the new management success in the new venture.

James Lowry has reopened the Olympia Exchange. He has a lease of the building formerly occupied by the Tennessee Mining Company as an office.

Clarence Bradshaw and Frank Blakeley have fenced in a number of acres in the rear of the Bradshaw residence, and intend sowing it to grain. The fencing in of this land closes up what is known as the "Ranch Hall cut-off." While it is a detriment to the teamsters, it is a good thing for the ranchers along the road, as the teams passing back and forth cut up the road so that it was almost impassible.

## H. D. C.

## Your Face

Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, pimples and skin eruptions. If you are feeling weak and worn out and do not have a healthy appearance you should try Aker's Blood Elixir. It cures all blood diseases where cheap sarsaparillas and so-called blood purifiers fail; knowing this we sell every bottle on a positive guarantee. Sold by A. Goldner.

## GENERAL BRIDGE FUND.

J. T. Clifton, bridge work.	15 00
A. B. McLaughlin, bridge work.	57 00
Morris Brinn,	30 00
Fred B. LeMoine,	6 30
P. Dwyer,	12 50

## SPECIAL ROAD FUND.

Morris Brinn, labor on Ione and Jackson road.	141 75
---	--------

## ROAD FUNDS.

A. B. McLaughlin, R. D. 3.	58 00
J. T. Clifton, R. D. 2.	199 75
P. Dwyer, R. D. 1.	304 00
